Consent Form for Participation in the PHRED Study

Purpose of the Study
The purpose of the PHRED project is to provide support and medication-counselling guidance, with a special focus on human–robot interaction. The study aims to explore how users interact with the PHRED framework and how such interactions can inform future research on medication-related communication.

What Participation Involves
You are invited to participate in this study by taking on the role of a pharmacy customer and having a conversation with the PHRED system.
Your interaction will be recorded and saved in JSON format. You will receive a questionnaire to be completed within three days. The questionnaire will serve two purposes:

1. To evaluate the PHRED framework from the perspective of both expert and general users.
2. To contribute to the creation of a dataset related to emergency contraceptive pill (ECP) medication counselling for future research.

Use and Storage of Data

- The interaction data and questionnaire responses will **not contain personal information**.
- If any personal information appears inadvertently, it will be **pseudonymised** or removed.
- Data will be stored securely and used only for research or study purposes.
- All findings will be reported in a way that ensures your anonymity. No identifiable information will ever be published.

Voluntary Participation
Your participation in this study is entirely voluntary. You may withdraw at any time without giving a reason and without any negative consequences. If you withdraw, your data will be deleted and will not be used in the research.

Questions and Contact
You may ask questions about the study at any time. All questions will be answered to your satisfaction before you decide whether to participate.

Please contact Prashani Jayasingha for more information: prashani.jayasinghaarachchige@abo.fi

Main Correspondence: Prashani Jayasingha
Supervisors: Johan Lilius, Malin Andtfolk, Bogdan Iancu

Consent Statement
I confirm that:

- I have read and understood the information provided about the PHRED study.
- I understand what my participation involves and how my data will be used and protected.
- I understand that participation is voluntary and that I may withdraw at any time without consequences.
- I agree to have my interaction data recorded and to complete the follow-up questionnaire.
- I consent to my pseudonymised data being used for research and publication.

I hereby give my voluntary consent to participate in the PHRED project.
